

VINCORION®

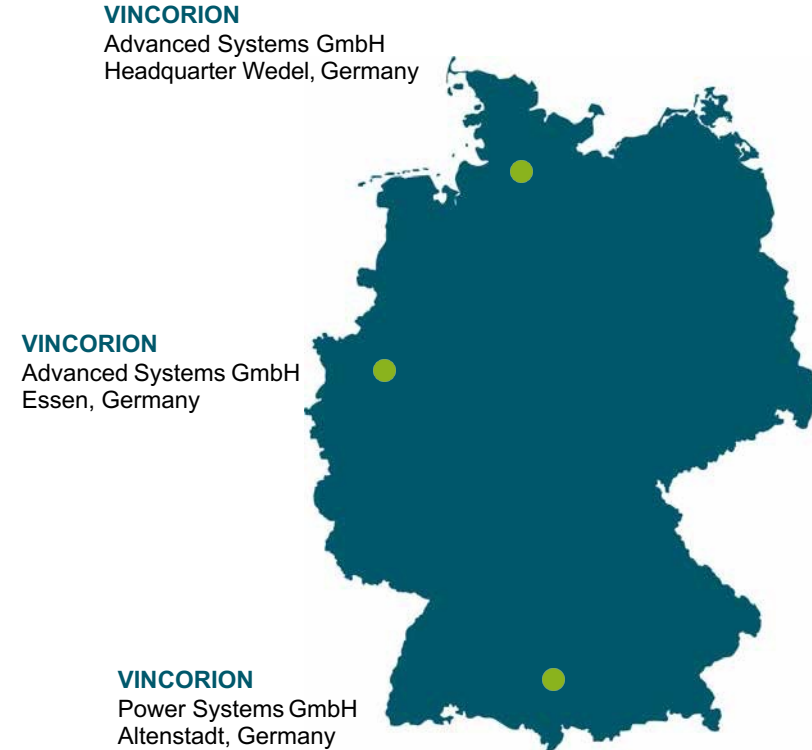

VINCORION is a technology company that specializes in innovative power systems for safety-critical applications, including generators, electric motors and drives, gensets, power electronics, and hybrid power systems.

As a partner to the civil aviation, security and defense, and rail industries, VINCORION develops and manufactures solutions tailored to its customers' specific requirements on the basis of an in-depth dialog. A high-performance customer support team provides assistance and service to users of the company's own products and those from third parties throughout the entire product life cycle.

Customers are for example systems companies and public authorities, aircraft manufacturers, manufacturers of railway and commercial vehicles and service providers in the service and maintenance industry.

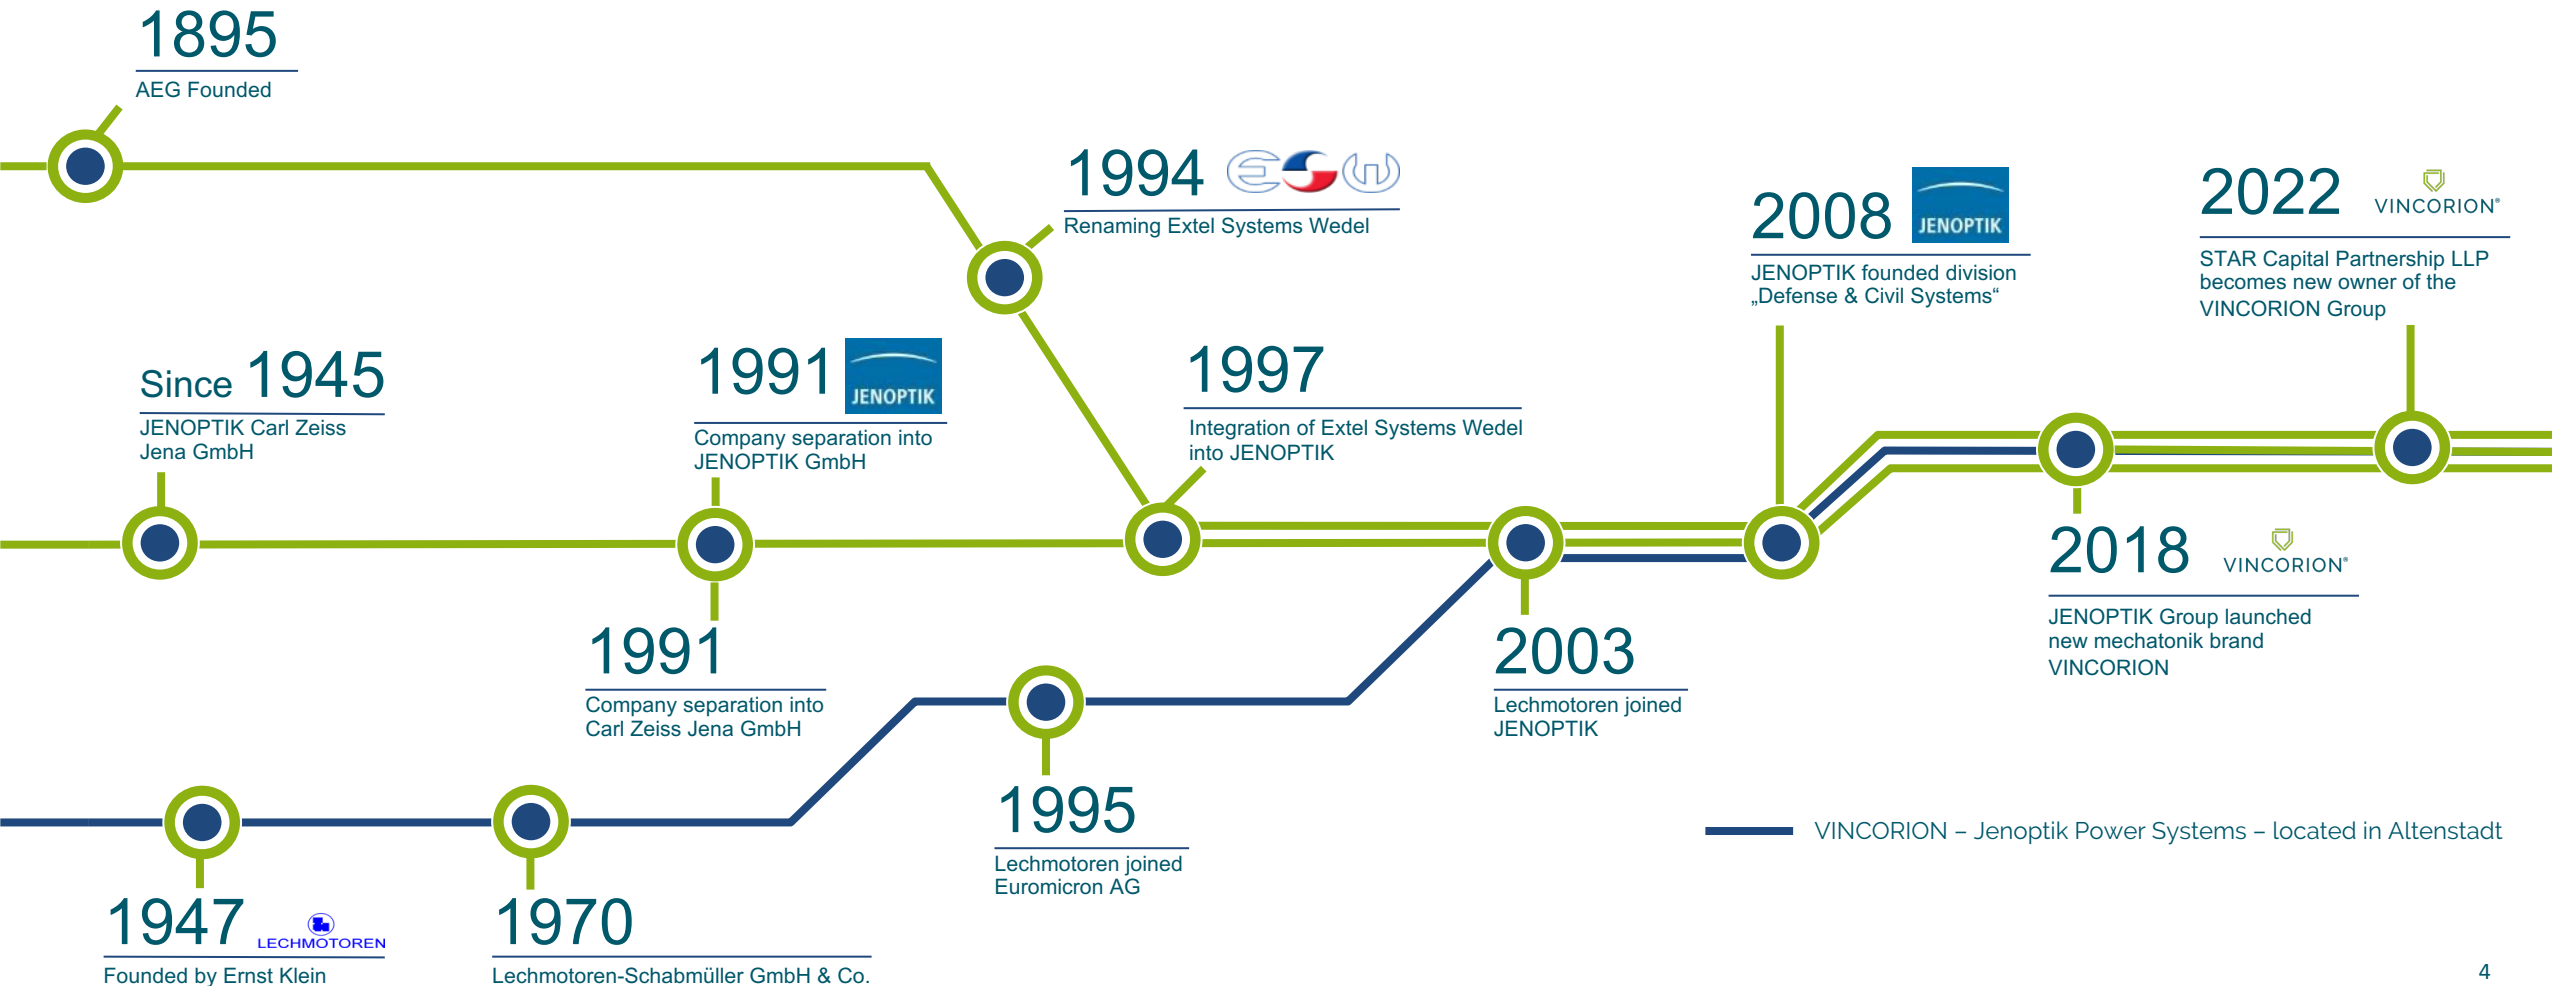

VINCORION IN NUMBERS

- About 700 employees worldwide
- Including more than 100 Engineers and 29 Trainees/Students
- 145 Mio. Euro Revenue in 2021
- Subsidiaries in Germany and the USA

HISTORY

VINCORION has its roots in strong companies like AEG, Jenoptik and Lechmotoren. This gives the young brand over 60 years of experience:
